EDIT

This open fan-fiction article was started by [Neverwitcher](#). Feel free to join the effort and enrich it with your own ideas, as long as you deem yourself knowledgeable enough and respect/do not delete what others wrote.

This article is an expansion based on a canon element. For canon information on this topic, follow the link to The Witcher Wiki: [Language](#).

A language is both a method and a system of communication used by sentient races throughout the world. Some became extinct as time passed, and its native speakers replaced it with a different one.

This page serves as information hub for those interested both in official canon and the expanded one.
